# parkpoint sanitizing & disinfecting products

We have been working diligently over the past three months learning best practices from a wide variety of medical professionals and facility maintenance experts.

Parkpoint will be introducing **new handheld and backpack electrostatic sprayers**, as used in health care facilities, to effectively attack microbes by coating equipment and surfaces with disinfectant daily. Our Maintenance Team and Staff will also utilize **spray bottles of medical grade, EPA-registered disinfectants**, designated as effective against the COVID-19 virus, for all continuous and deep-cleaning processes. In addition, Members will be asked to wipe down equipment that they use with Club-provided disinfectant sprays and/or wipes both before and after usage. We will be doing a thorough cleaning and disinfecting in the 30-minute period between each one-hour workout session.

## BIOESQUE: BOTANICAL DISINFECTANT SOLUTION

- US EPA Registered Broad-Spectrum Disinfectant
- Kills COVID-19
- Kills Cold & Flu Viruses
- Kills Norovirus
